D = suppressed for confidentiality reasons; NA = not available; S = suppressed for reliability reasons.

SEH = science, engineering, and health.

^a Full-time senior faculty includes full professors and associate professors.^b Full-time junior faculty includes assistant professors and instructors from 1973 to 1995; from 1997 to 2010, full-time junior faculty includes assistant professors.^c Other full-time positions include positions such as research associates, adjunct positions, lecturers, and administrative positions from 1973 to 1995; from 1997 to 2010, other full-time positions also include instructors.^d Part-time positions exclude those employed part time because they are students or retired.

NOTES: Detail may not add to total because of rounding. Academic employment is limited to U.S. doctorate holders employed at 2- or 4-year colleges or universities, medical schools, and university research institutes. Physical sciences include earth, atmospheric, and ocean sciences; life sciences include biological, agricultural, environmental, and health sciences. Data beginning with 2008 include all U.S.-trained doctorate recipients who lived or worked in the United States on the survey date. These data correct for a slight undercount in prior years, when some U.S.-trained doctorate recipients who either planned to live abroad or were living abroad were excluded.

SOURCE: National Science Foundation, National Center for Science and Engineering Statistics, special tabulations (2013) of the Survey of Doctorate Recipients (various years).
